Bachelor's Degree in Systems Engineering

Central American Adventist University
Jan 2023 – Nov 2026

LANGUAGES

English — Native
Spanish — Fluent

PROFILE

Web developer with a Systems Engineering background and one year of freelance experience delivering web applications for clients, backed by three years of hands-on academic training in programming, databases, and software development. Skilled in Python, PHP, Laravel, JavaScript, React, SQL, and responsive design, with a track record of building functional, user-friendly websites end to end, from client requirements to deployment. Strong communicator, fast learner, and comfortable working independently or in a team, with a genuine interest in contributing to technology.

WORK EXPERIENCE

Freelance Web Developer

2024 – Present · 1 year

Independent / Multiple Clients

- Designed, built, and deployed 6+ websites for independent clients, including business landing pages, e-commerce sites, and web applications with backend functionality (user login, database integration).
- Used React, JavaScript, HTML5/CSS3, and SQL to translate client requirements into responsive, functional websites.
- Managed the full project lifecycle — requirements gathering, development, testing, and delivery — working directly with clients from start to finish.
- Applied version control (GitHub) to track changes and maintain reliable, well-organized codebases.

Mathematics Teacher

Aug 2023 – Nov 2023

Belize Adventist College

- Taught mathematics to students using structured lesson plans.
- Evaluated student performance through assignments and exams.
- Encouraged critical thinking and problem-solving skills.
- Created a positive and engaging learning environment.
